

NMPA Mountain Flying Familiarization Clinic-flight option

The optional cross-country flight, though not required part of the clinic, is an excellent introduction to flying in the high country. The route takes you with a highly experienced mountain flying flight instructor through six mountain passes and to up to six mountain airports (all above 6000' msl and with paved runways) providing reinforcement of what is learned in the ground school. The route takes 3 1/2 to 5 hours to fly, depending on the aircraft.

Directions: FBO is adjacent to the main terminal

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
